92% of spend now under digital management

**Key Objectives**

- Spend visibility
- Regulatory compliance
- Operational efficiency
- Supply base management
- User adoption
- Process digitization

**Taking Spend Digital in Southeast Asia**

The Development Bank of Singapore (DBS) is the largest bank in Southeast Asia with 280 branches in 18 markets. Named the “Safest Bank in Asia” by Global Finance from 2009 to 2017, DBS is unparalleled in security and regulatory compliance.

As their organization and supply base grew, digitizing procurement and spend processes became increasingly necessary. Current processes, like invoicing, were inefficient and cumbersome. They needed better spend visibility. And regulatory compliance was critical for the very diverse regional requirements.

**DBS Selects Coupa for Business Spend Management**

DBS had high expectations for a new procurement system. They sought a solution that was secure and configurable to enable visibility and control. They also wanted to raise the bar and enable a “joyful experience” for business spend management processes.

After comparing several procurement systems, employees overwhelmingly chose Coupa for its ease of use, comprehensive capabilities, and intuitive nature.
